2.3 Standard of Performance

Communication shall be conducted through mutually agreed channels including electronic mail, messaging platforms, and video conferencing. Nothing in this arrangement shall affect the legally binding nature of this Agreement or of any approval or instruction exchanged electronically.

2.5 Client Responsibilities

- Providing all required content, images, videos, branding materials, and copy within the timelines stipulated in the SOW;
- Providing feedback or approvals within forty-eight (48) hours of any submission by the Service Provider, unless a different period is agreed in writing;

- Registering and maintaining any domain name required for the Project in the Client's own name, unless otherwise agreed;
- Obtaining any regulatory approvals, tourism licenses, or permits required for the Client's business operations, which are outside the scope of Services.

Any delay caused by the Client's failure to fulfill the above obligations shall not constitute a breach by the Service Provider, and the agreed timelines shall be extended commensurately.

3. PAYMENT TERMS

3.1 Fees

The fees payable by the Client to the Service Provider for the Services shall be as set out in the applicable Statement of Work. The fees shall be in accordance Schedule 1.

17.1 Entire Agreement

This Agreement, together with all Statements of Work and Schedules, constitutes the entire agreement between the Parties with respect to its subject matter and supersedes all prior representations, negotiations, undertakings, and agreements between the Parties relating thereto.

17.2 Amendments

No amendment or modification of this Agreement shall be valid unless made in writing and signed by duly authorised representatives of both Parties.

17.3 Waiver

No failure or delay by either Party to exercise any right or remedy under this Agreement shall operate as a waiver of that right or remedy, nor shall any single or partial exercise preclude any other or further exercise thereof.

17.4 Severability

If any provision of this Agreement is held to be invalid, illegal, or unenforceable by a court of competent jurisdiction, the remaining provisions shall continue in full force and effect. The Parties shall negotiate in good faith to replace the invalid provision with a valid one that most closely approximates the intention of the original.

17.5 Assignment

The Client shall not assign, transfer, or sub-contract any of its rights or obligations under this Agreement without the prior written consent of the Service Provider. 1. Project Overview

Development of a custom, multi-page tourism website for guided group tours to Russia, targeting Indian travelers. Built using a modern React-based architecture with a focus on maintainability, performance, and scalability.

The project follows a **Strategy + Execution** approach — every design and UX decision is made with the goal of converting Indian visitors into group booking enquiries. The site launches with 1–2 group trips live, with the architecture ready to scale as more trips and licenses are added.

Design References

The visual and structural direction is based on the four reference sites provided:

- **discover.moscow** — Visual design language, card-based layouts, bold typography
- **russia.tours** — Tour package structure, pricing display, testimonial patterns
- **discoverrussia.travel** — “Plan your Trip” module structure (Visa, Safety, Transport)
- **discoverrussia.ru/en** — Cultural storytelling and brand tone

2. Scope of Work

/about	About Me	Your background, photo, contact
/partner	Partner with Us	B2B page for Indian travel agents who want to cooperate — opens in a new tab, with

2.3 Certifications & Trust Badges — Approach

Per our call, two types of certification apply:

- **Technical (SSL/HTTPS):** fully covered out of the box. The architecture automatically provisions and renews SSL certificates — the site is encrypted for all visitors from day one, no action needed from you.
- **Business / tourism licensing:** since your tours are operated in Russia, Russian tour-operator licenses are the relevant credential. As discussed, you’re launching with 1–2 trips and plan to apply for

the appropriate Russian licenses and permits once the business is in rhythm.

To keep the site honest and ready: we will build a dedicated, structurally-ready certifications section in the footer and About page now. It launches showing your live security/SSL trust indicator. The license-badge slots stay empty (not filled with placeholder or unverified logos) until you send us the actual logos and confirm which licenses apply — at that point, adding them is a five-minute update, not a rebuild.

2.4 Post-Launch Support

- **Option A:** 14 days of bug-fix support
- **Option B:** 30 days of bug-fix support + basic CMS training
- **Option C:** 60 days of bug-fix support + content update assistance

Option B — Recommended	Rs. 65,000	3-4 weeks
Option C — Expansion Ready	Rs. 78,000*	4-5 weeks

**Option C revised to Rs. 78,000 (from the standard Rs. 85,000 rate) per agreed terms, reflecting the Phase 1 single-tour rollout and the intent for a long-term working relationship. All other terms of Option C remain as scoped in Section 2.*
